SIRIM STANDARD

SIRIM Berhad is a premier total solutions provider in quality and technology innovations that helps industries and businesses to compete better through every step of the business value chain.

SIRIM Berhad is the centre of excellence in standardisation, facilitating industries and businesses in enhancing their production and competitiveness, protecting consumers' health and safety, and giving them the choice for quality products and services.

As a standards development organisation, SIRIM Berhad has extensive expertise in standards research and consultancy which helps industries and businesses to meet local and international requirements and practices, through the development of SIRIM Standards.

SIRIM Standards are developed according to SIRIM standardisation procedures with the participation of interested parties. SIRIM Standards are developed through consensus by committees, which consist of experts in the subject matter. The use of SIRIM Standards is voluntary, and it is open for adoption by regulators, government agencies, associations, industries, professional bodies, etc.

Foreword

The development of this standard is co-funded by SIRIM Bhd and CVC Certification & Testing Co., Ltd.

This SIRIM Standard was developed by the Project Committee on Premium Products established by SIRIM Berhad.

This standard was developed with the objectives as follows:

- a) to establish clear and consistent criteria for premium products;
- b) to provide consumers with a means to identify products that offer higher quality, safety, or value; and
- c) to be made as a reference for the certification for premium product.

This standard will be reviewed periodically and, if necessary, revised to reflect current needs and conditions. Users and other interested parties may submit comments on the contents of this standard for consideration in future versions.

Information to assist users of the standard

For the purpose of this standard, the following International Organization for Standardization (ISO) definitions have been adopted regarding verbal forms for the expression of provisions:

- a) “**shall**” indicates an **auditable requirement**: it is used to indicate requirements strictly to be followed in order to conform to the document and from which no deviation is permitted;
- b) “**should**” indicates a **recommendation**: it is used to indicate that among several possibilities one is recommended as particularly suitable, without mentioning or excluding others, or that a certain course of action is preferred but not necessarily required, or that (in the negative form) a certain possibility or course of action is deprecated but not prohibited;
- c) “**may**” indicates a **permission**: it is used to indicate a course of action permissible within the limits of the document; and
- d) “**can**” indicates a **possibility** or a **capability**: it is used for statements of possibility and capability, whether material, physical or causal.

Compliance with this standard does not by itself grant immunity from legal obligations.
