Foreword

This document was developed by the Project Committee on MyCRS Double Tracking Chip established by SIRIM Berhad.

This standard was developed with the following objective:

- a) to define the design, functionality, and operational parameters of the Double Tracking Chip produced and/or marketed by MyCRS.

This document will be reviewed periodically, and if necessary, revised, to ensure that it reflects current needs and conditions. Users and other interested parties may submit comments on the contents of this standard for consideration in future versions.

Compliance with this standard does not by itself grant immunity from legal obligations.
